

ADVERTISING FOR CREATIVE BUSINESSES

PRICE SHEET

ABOUT YOUR CAMPAIGN

We will customise an advertising strategy based on YOUR unique needs, goals and resources. Every business is as unique as its business owner, and I will help you tap into what's unique about your brand and mission so we can highlight it through the ads. We will look at what is already working in your funnel, review what can be improved, and build our campaign based on your long-term goal.

ADVERTISING CAMPAIGN

CHANNELS

- €1400 / per month (not including ad-budget)
- 3 months minimum campaign
- Minimum €1500 in ad budget per month

USEFUL INFO

ADS BUDGET

I recommend an ad budget of minimum €1,500 per month in order to see results from your campaign. I will use this budget to utilise our agreed upon channels and scale the best performing channels and assets. In order to build a retargeting funnel for your audience I recommend a budget of €2,000 if possible.

FUNNEL, CONTENT + BRANDING

The more high-quality content you can provide me with, the more successful your advertising efforts will be. I will send you a list of different ideas that you can shoot and create yourself, but professional product photography is a must if you want to build a profitable jewelry brand. To get the most out of our partnership, I recommend you prepare a folder with high quality, ready-to-use product and lifestyle photos before we start the campaign.

The advertising traffic should be directed to a high-quality landing page and/or product page. I am always happy to work with you to develop an optimised landing page and funnel.

FIRST STEPS...

I only work with brands and entrepreneurs I truly believe I can help and get profitable, therefore we will start with hopping on a zoom call to make sure our goals and visions align.

If we decide to work together, I usually have a set-up timeline of 7-10 business days. The first step for you will be to fill in a document with information about your brand, audience and goals. I will then start doing audience research and set up the first campaigns to get things going.
