USEFUL INFO

ADS BUDGET

I recommend an ad budget of minimum €1000 per month in order to see results from your campaign. I will use this budget to utilise our agreed upon channels and scale the best performing channels and assets. In order to build a retargeting funnel for your audience I recommend a budget of €2,000 if possible.

FUNNEL, CONTENT + BRANDING

The more high-quality content you can provide me with, the more successful your advertising efforts will be. I will send you a list of different ideas that you can shoot and create yourself, but professional product photography is a must if you want to build a profitable jewelry brand. To get the most out of our partnership, I recommend you prepare a folder with high quality, ready-to-use product and lifestyle photos before we start the campaign.

The advertising traffic should be directed to a high-quality landing page and/or product page. I am always happy to work with you to develop an optimised landing page and funnel.

FIRST STEPS...

I only work with brands and entrepreneurs I truly believe I can help and get profitable, therefore we will start with hopping on a zoom call to make sure our goals and visions align.

If we decide to work together, I usually have a set-up timeline of 7-10 business days. The first step for you will be to fill in a document with information about your brand, audience and goals. I will then start doing audience research and set up the first campaigns to get things going.
